DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or dull, dizzy headaches, or if you feel wear and tuck into bed and sleep, you have a real surprise awaiting you.

To-morrow morning, immediately upon rising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

This is sufficient to wipe headaches, backaches, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying the morning inside-out.

It is said that men and women who try this become unusually well kept up in body. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is now new, as millions of people practice it. Just as hot water and soap cleanse, purify and refresh the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.

AMERICAN SOLDIERS IN FRANCE WELL DISCIPLINED

General Who Issued Them Disclosed Later That "Orders in Orders," But He Was Pleased Just the Same

With the American Army on the Lorraine Front, April 20. The writer and with his gas mask on his chest, a certain brigadier general recently accompanied visitors from home on a tour of the trenches. Coming to a dugout, where a lieutenant was in command, the party stopped and the general, looking like any other fighting American of the line, explained to his guests how the men lived. He finally suggested to the lieutenant that the visitors be shown in the dugout, with the following result:

"Sorry, sir, but it is strictly against orders to admit any one to dugout."

"But you can show these gentlemen, can't you?"

"Who do you get your orders from?"

"From Colonel Blank, sir."

"And who will he get his orders from?"

"From General _____, sir."

"Well, I'm General _____."

The Lieutenant blushed clear thru the mud that had spattered on his face.

The general complimented him on his observance of orders. The visitors had just a little peek at the dugout,

and also the men freshly arrived. The shift is the same with all. I never saw finer men than the men now arriving in France. All are eager to get into the fight and would welcome an opportunity to take a place in the line along the great battle in the north.

It has been a revelation to France what America already has done in building railways, roads, barracks, etc. A week ago I saw American troops marching over a mud road. Today a long road, many miles in length, a complete, and a telephone line in working order. Some German prisoners, after seeing evidences of the gigantic machine Uncle Sam is establishing, stopped, shrugged their shoulders and said they hoped the Germans would win the present battle.

TO PROTECT SOLDIERS IN SOUTHERN CAMPS

Washington, April 20.—The public health service has just begun the most extensive anti-malaria campaign ever undertaken in the United States with a view to protection of the health of the soldiers in the southern cantonments. Congress has authorized this crusade and provided the funds and it is expected that \$100,000 will have been spent by Uncle Sam in this work by July 1, 1919. This is exclusive of the government's part in the co-operative health work now being carried on in the vicinity of these cantonments by the public health service, the American Red Cross and the local health authorities.

A quarter ounce of freezezone costs but a few cents at any drug store. Apply a few drops directly upon your tender corn or callus, and instantly the soreness disappears; then shortly the corn or callus will be so loose that it lifts off.

Freezone dries instantly. It doesn't eat out the corn or callus, but just shrivels it up so it lifts away without even irritating the surrounding skin.

Women should keep it on the dresser and never let a corn or callus ache twice.
